Dear Josh

It was good to hear from you, and I apologize for not hearing your name clearly, or being quicker to make the mental connection. You are the obvious person (beside Beadle) to write Ed's memoir. I now remember that Warren Weaver suggested Ed to Beadle.

Also, ~~that~~ Ed actually taught microbiology one summer here when van Niel went on sabbatical.

I'm afraid I urged Ed to go to Yale, having lost confidence in Stanford's future! (until Sterling revived it.) I shall look

forward to reading the memoir!

Is June still at Stanford? And would she be willing to talk about Ed?

Best wishes

Lawrence Blumberg

We had a ~~Euprosma~~ hedge known as the Tatum memorial hedge - he helped plant it one summer. (It is now bamboo!)
